TURKISH HUB

Dear members of the ELI Turkish Hub,

ELI Turkish Hub has been holding monthly webinars since its establishment on July 29, 2022. Unfortunately, face-to-face meetings have been postponed due to the ongoing negative effects of the pandemic and last year's earthquake disaster.

To facilitate collaboration among ELI Turkish members and generate fresh project concepts, we have scheduled workshop meetings in the upcoming months to discuss relevant topics in ELI's three main areas of focus: Rule of Law and Convergence of Legal Systems in the 21st Century, Law and Governance for the Digital Age, and Sustainable Life and Society.

The first meeting, hosted by **Pîrî Reis University** on **March 14, 2024**, will focus on "**Digital Assets**".

For members who are traveling from outside Istanbul, the workshop program is scheduled for March 14th from 14:00-16:00.

To facilitate the workshop's progress, we will begin with presentations from members interested in discussing 'digital assets'. Members who wish to present can submit their presentation titles and short summaries to turkishhub@europeanlawinstitute.eu by **February 29, 2024**.

We would be honored to have the participation of all individual members and representatives of our institutional members in this workshop. It will provide an opportunity for us to finally meet face-to-face. Please inform us of your participation for organizational purposes.

Best regards,

Executive Committee of ELI Turkish Hub
